Vasquez + Company LLP is proud to be part of Aprio Alliance—a national association created by accounting professionals to help collaborative, growth-minded CPA firms thrive. This affiliation gives us access to leading expertise, resources, and best practices, while preserving what matters most: the personalized service and local insight you expect from an independent firm. Aprio Alliance member firms are separate and independent businesses and legal entities that are responsible for their own acts and omissions, and each are separate and independent from Aprio. "Aprio" is the brand name under which Aprio, LLP and Aprio Advisory Group, LLC (and its subsidiaries) provide professional services.

TRUSTED BY CLIENTS WE SERVE

See what our clients have to say about their experience with Vasquez

Thanks for delivering the draft on time and for the quality of the output. It is amazing that you were able to put this together so quickly. The Vasquez team did a really good job of responding to the client's needs and we deeply appreciate the effort put into it. Once again, thanks for all your help, dedicated attention, and patience.

Working with Vasquez + Company LLP for over 5 years for our nonprofit finances... they are prompt, understand nonprofit finances, detail oriented and communicative to make sure things are done on time and with accuracy. They also support us every year in other ways... reporting financial information to entities and performance reviews they are very acquainted and knowledgeable.

I would like to say thank you to your entire team for the hard work and dedication... It was a pleasure working with you all. I also recognize during the process the great collaboration with you all and our accounting team. I feel extremely proud to have been involved in such a memorable process.

Sincere appreciation for your IT audit team that has worked hand-in-hand with our team during the course of this year's audit. I have been the primary IT liaison with your IT auditors for the last three years, and as expected, the IT requirements get tighter each and every year. I would like to recognize the professionalism, friendliness, detailed understanding of IT Security Controls and the project management of this year's engagement. The most important characteristic that they all exhibit is their ability to effectively communicate the needs of the audit and the positive nature of their interactions.

Team's understanding of financial reporting for non-profit organizations and FQHCs was impressive, and the professionalism of the entire team was exemplary.
